

## Extended Day Classes

**Enrollment Deadline:** Wednesday, August 10, 2022

**Details:**

- Students will be dropped off to the supervised Extended Day Class pickup area by their classroom teachers.
- Students will have time to eat a snack before EDC classes begin; however, a snack will not be provided unless your child is also enrolled in After School Care on that day. Therefore, please provide a snack for your child to eat before EDC class begins.

**Pick Up Procedure:**

- Parents, please wait by the tree benches (near the front gate closest to Starbucks) for your child to be dismissed from class.
- Teachers will release students to their parents at the tree benches.
- Students who leave EDC early will need to be signed out by their parent or guardian in the office. Please call the office in advance to arrange for early pickup.
- Students not picked up at 4:00pm when class is finished will be placed in After School Care at the \$20 drop-in rate. **Please be on time when picking up your child(ren).**
- If you have any questions please contact Dara Torres, Student Services Coordinator, at [dtorres@holynativityschool.org](mailto:dtorres@holynativityschool.org)

Little Doctor School is the pioneer and leading developer of hands-on interactive programs for children with a focus on healthcare. We inspire young minds by sharing our passion for learning, health and careers in medicine. Little Doctor School uses real medical instruments and educational role-play to inspire the next generation of healthcare heroes. Through hands-on activities, role-play, and interactive demonstrations, children explore the exciting world of healthcare. At Little Doctor School, students will assume the role of a doctor and learn how the body and organs work, how to use medical instruments, and even tie knots like a real surgeon.

Why students love Little Doctor School?

- It's fun! Students come home excited to share what they have learned
- They dress like Doctors
- They enjoy hands-on experience, including suturing, applying first aid, and reading x-rays with real working medical equipment

Coding for kids teaches computer programming skills through interactive and exciting projects. These fun classes are perfect for kids who have great imaginations, like figuring out how things work or simply love technology. In our class kids will have a blast creating video games, animated stories and bring their imaginations to life. You don't even have to mention all the coding skills he or she is learning along the way: basic coding and programming, problem solving, logic and more.

In each class, your child works with our advanced technology platform that's intuitive and easy to use. It's a low stress setting in which your child works at his or her own pace with the support and encouragement of a teacher. Each class has a distinct objective and outcome, so your future computer whiz will work toward a goal and feel a great sense of accomplishment!

Please note: iPads will be provided; however, students are encouraged to bring a personal iPad or computer from home to use in the class.

### **Amazing Athletes**

**Grades:** Keiki 3 - 2G

At Amazing Athletes, we use sports as a catalyst to meet the needs of the whole child through non-competitive, sports-based fitness classes designed to advance each child's individual motor-skills and inspire future participation in physical activity. Amazing Athletes is the premier year-round developmental physical fitness program empowering children aged 2 ½ to 7 years old to reach developmental milestones at an individual pace.

Our fun, active classes encourage kids to explore and develop a variety of athletic skills through the introduction of 10 different sports: basketball, football, volleyball, tennis, soccer, hockey, golf, baseball, lacrosse and track & field. Coaches break the fundamentals of each sport-based skill down into simple steps based on each child's age and ability.

### **Robotics**

**Grades:** 1G - 5G

**Cost:** \$360 (Minimum of 4 students required to hold the class, maximum of 20.)

**Location:** 4th Grade Classroom

**Dates:** Thursdays, 3pm – 4pm

**August 18th - December 8th, 2022**

15 classes: 8/18, 8/25, 9/1, 9/8, 9/15, 9/22, 9/29, 10/13, 10/20, 10/27, 11/3, 11/10, 11/17, 12/1, 12/8

Robotics for Kids uses fun, hands-on projects to get your child's creative juices flowing. Your child will learn how to build and program robots with LEGO bricks and software – all while making friends, developing new skills and having a great time. The earlier you can give your child fun, hands-on experiences with science, technology, engineering and math (STEM), the better you can set your child up for success in fast-growing, high-paying careers. For many kids, the robotics class is a highlight of their week.

In each class, your child builds a new robot using LEGO. Along the way, they learn science and engineering concepts, such as how pulleys, levers and motors work. As the kids' robots take shape, they experiment with LEGO Education's award-winning WeDo software. They discover how to apply computer programming concepts and find new ways to get their 'bot' moving.

### **Super Soccer Stars**

**Grades:** Keiki 3 - 2G

**Cost:** \$500 (Minimum of 4 students required to hold the class, maximum of 20.)

**Location:** Osco Field

Super Soccer Stars teaches the fundamentals of soccer in a fun, non-competitive, educational environment. Our unique curriculum uses positive reinforcement and a low child-to-coach ratio to make sure each child feels confident in their own abilities, allowing kids to improve at their own rate. No matter their age, Super Soccer Stars has specific and progressive lesson plans built to your child's developmental needs. Many of our program ages overlap so that you and your child can be comfortable with the level of play during your session.

The goal of the program is to improve children's elementary capacity through fun games, technical skill development and group activities. We teach body movement with the ball, dribbling techniques, passing, shooting and moves to promote confidence with the ball. Students learn familiarity of space and awareness of teammates to enable children to develop team skills in a game environment.
